

BACHELOR ACCOUNTANCY

Bachelor of Accountancy

BANGKOK | YANGON

ABOUT THE COURSE

INTRODUCTION

All courses offered in the Bachelor of Accountancy (B.Acc.) program are taught in English by our internationally accredited faculty. The Bachelor of Accountancy program serves to effectively equip our students with the essential knowledge required to enter into their chosen profession. Due to a close relationship with the Thai Chamber of Commerce, we have the privilege of guaranteeing suitable internship placements to students. It is through these internship experiences that students will learn how to apply their classroom theory to real world business situations. As a result, students in this program become much more experienced and well-prepared for entrance into businesses on an international level, especially in such a competitive and constantly changing environment.

WHY ACCOUNTING?

Accounting is one of the most important factors for success in the business arena.

By understanding accounting it will serve as an effective tool in understanding business perspectives.

Accounting is more than just numbers. Decision making made by high level management greatly relies on the quality of accounting information.

A strong accounting background is a valuable asset that will contribute to ones' career goals and achievement.

PROGRAM OBJECTIVES

The program takes into consideration an accountant's role in maintaining records of financial transactions affecting organizations, reporting the results of operations and information technology in professional applications.

The program focuses on particular aspects of accounting which enable students to gain the knowledge and skills necessary to become an accounting professional.
